• Therma-Tru. You're in expert hands.

Choosing Therma-Tru isn't about just selecting a door. It's about designing an inspired entrance. Creating a look everyone will love. And having confidence that it will perform for years to come.

Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers virtually unlimited choices to complement the architecture of a home and a homeowner's sense of style.

But it's more than beauty that makes Therma-Tru the brand building professionals prefer most.* With more than 50 years of industry experience and technical know-how, we've built a reputation for delivering high-quality, low-maintenance exterior door products for the whole house – from entry to patio.

We invented the fiberglass door because we believe it combines the best characteristics of wood and steel – beauty and performance – without the compromises. And we remain committed to making smart, innovative new products that are better and more beautiful every year.

Whatever the entrance needs – from energy efficiency to security – your search ends here. You'll find a wide range of durable and reliable Therma-Tru products built to meet the needs of the home and the homeowner's lifestyle.

That's where the beauty of choosing Therma-Tru begins.

Therma-Tru® Door Systems

Uncompromising quality, inside and out.

A Therma-Tru door with genuine Therma-Tru components is more than a beautiful door – it's a complete door system. One that offers uncompromising quality, inside and out. We manufacture or specify every aspect – from the glass to the hinges – all engineered with craftsman precision for durability and reliability through the years. So you can be confident that it will perform as exceptionally as it looks.

• Backed by our lifetime limited warranty.

Lifetime Limited Warranty

We stand behind more parts and for longer than other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranty.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

Quality Testing

Our doors, glass and components are held to high standards. We conduct thorough testing to help ensure that our products will live up to a homeowner's toughest quality and performance expectations.

The Beauty of Choice

The architectural beauty of a Therma-Tru door is easy to see. With the look of real wood, rich panel details and intricate, handcrafted decorative glass designs, there are thousands of possibilities to suit the style of a home and express a homeowner's personal style.

Door System Components

Have confidence in a door system made with genuine Therma-Tru components to meet the needs of many applications. More on pages 6–7.

Door Selections

Find choices in design, texture and material with many configurations available to find the ideal door system. More on pages 8–15.

Decorative & Specialty Glass

Complement any Therma-Tru door with a variety of glass shapes and designs. More on pages 16–19.

Finish Options

Complete the desired look with stain or paint, including the Same-Day® Stain kit available in seven popular finish colors. More on pages 266–267.

Selecting a Door System

Therma-Tru pays close attention to regional and consumer trends to deliver choices designed to inspire. Keep these considerations in mind when choosing from our portfolio of door system products:

- What is the size of the doorway?
- What is the style of the home?
- Does the homeowner want to stain or paint the door?
- How much light or privacy is desired?

Also consider:

- Regional weather conditions and building codes. See pages 22–23 for more.
- Therma-Tru 2016 new products. See pages 24–31 for more.

Engineered to Work Together

Our complete door systems feature doors, glass and components engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

1 Sill and bottom sweep form a tight seal against wind-driven moisture infiltration at the bottom of the door system and help channel moisture away from the home. **Sill pan** (recommended) adds an extra layer of protection to help keep moisture away from the subfloor.

2 Corner seal pads (inswing only) complete the seal between the **sill cap**, **bottom sweep** and **weatherstrip** to help block potential pathways where wind-driven moisture can infiltrate the bottom corner of the door system.

3 Hinges position the **door** to properly compress the **door** to properly compress the **weatherstrip** to help form a tight, even seal against air and moisture infiltration when the door closes.

4 Weatherstrip is specifically engineered in a variety of profiles to provide the best possible fit with our door systems, helping to deliver a precise seal between the **door** and **frame**.

- 5 Multi-point locking system** (recommended) engages the **door** and **frame** at three points from top to bottom, helping to preserve the **weatherstrip's** seal even under wind pressure.

- 6 Lip-lite frame** (shown right) features a **compression seal** against weather on the outside of the **door** and an **adhesive seal** against weather on the outside of the **glass**. **Flush-glazed glass** (shown left) is built directly into the door without a Lip-lite frame, featuring a **high-performance adhesive weather seal** inside and out.

A Complete Door System

More than beautiful doors and glass; a complete door system includes the components used to assemble it. We manufacture or specify every aspect of a complete door system. The Therma-Tru® genuine components shown here are our premium options for long-lasting durability.

Composite Adjustable Sills

Inswing and outswing composite sills resist rotting and insects. Inswing adjustable sills help to maintain a tight seal over time.

Dual-Bulb / Dual-Fin Bottom Sweeps

A dual-bulb, dual-fin design helps maintain tight contact with adjustable sill caps and creates added barriers against moisture.

7-Shape Corner Seal Pads

Innovative options include our patented jamb assembly, featuring the 7-shape corner seal pad which creates an air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Removable Weatherstrip

Resilient design compresses when closed and springs back when open, protected by a durable jacket, for long-lasting sealing power.

Multi-Point Locking Systems

(Recommended)

Increased engagement between door and frame enhances stability and the homeowner's sense of security.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.)

Ball-Bearing Hinges

Hinges with ball bearings protecting each hinge pivot, or "knuckle", offer added support and stability.

(Recommended for Classic-Craft doors, 8'0" doors, doors with glass, and Impact- and Fire-rated fiberglass doors.)

Frame Components

Check with your Therma-Tru seller for options to complete the door system, including rot-resistant brickmould, jambs, mullions and coil cladding manufactured to our specifications.

For more, including these additional component options, see pages 256–265:

Sill Pans, Rain Protection, Strike Plate and Astragals.

Tru-Defense: The Ultimate Protection

Therma-Tru fiberglass doors are available with our exclusive Tru-Defense system as an option. It integrates specific components engineered and tested to deliver outstanding protection in all kinds of weather conditions. And it's backed by a Warranty Rider that provides for cash reimbursement that may be used toward secondary damage to flooring and trim, and the labor to make repairs if water infiltration occurs.* Look for the (⊕) icon. For details, visit www.thermatru.com/trudefense.

Water Infiltration Cash Reimbursement Limit

Latch and Deadbolt Lock with Standard Assembly:	\$250
with a Therma-Tru Sill Pan:	\$500
Multi-Point Lock with Standard Assembly:	\$750
with a Therma-Tru Sill Pan:	\$1,500
Multi-Point Lock with NAFS-Certified Door System:	\$1,000
with a Therma-Tru Sill Pan:	\$2,000

*The Rider does not warrant workmanship of anyone who assembles or installs a Tru-Defense door system, nor any damages caused by improper handling, assembly or installation.

Door Selections

Choose from our many door selections to complement the architectural style of the home. The possibilities are endless from fiberglass and steel materials to wood-grained and smooth textures to stainable and paintable finishes.

Classic-Craft® Collections Pages 32-107

Find the right style for any personality. Choose from premium fiberglass entryways in four wood grains or a smooth surface that all rival custom wood.

Both Classic-Craft and Fiber-Classic are rated a *Consumers Digest* Best Buy in the fiberglass entry doors category.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Echo

See the difference.

Discover architecturally correct designs, exclusive glass options and rich, authentic finishes.

Feel the difference.

Experience the integrity of a solid, precision-engineered entryway built for long-term durability, stability and peace of mind.

• Extraordinary in every way.

Classic-Craft® Premium Entryways

A premium entryway that's truly unique and uncompromising in every detail. One that blends precision-engineered features with architecturally correct details to produce an entryway that performs as exceptionally as it looks – instilling confidence and peace of mind. And Classic-Craft entry doors are rated a *Consumers Digest* Best Buy for their exceptional warranty, quality of materials and construction, and resemblance to a real wood door.

Compare for yourself.

Premium – right down to the edge.
A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.
The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

The look of real wood.
Realistic wood grains that are virtually indistinguishable from high-grade wood doors, thanks to Therma-Tru's AccuGrain® technology.

Details that define a custom door.
Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

Architecturally correct for true classic beauty.
Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Up to 25% wider panels*

Classic-Craft Premium Door

Standard Fiberglass Door

*Compared to other standard fiberglass doors.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

- Find options to fit every entrance.

Fiber-Classic® & Smooth-Star® Doors

Bring home the authentic look of wood with the low-maintenance benefits of fiberglass. From front entry to patio, you will find flexible options to fit virtually every entrance with beautiful, energy-efficient, durable and secure fiberglass doors. Choose from a wide range of door styles and sizes, glass designs, and options to meet building codes. And Fiber-Classic entry doors are rated a *Consumers Digest* Best Buy for their exceptional warranty, breadth of style options and wood-grained texture.

Portfolio versatility.

With many door styles in common and interchangeable glass designs between collections, it allows flexibility to find the right door, in the right texture, without compromises.

On-trend surfaces.

Available in a variety of textures, including grain choices with the look of real wood or a smooth, paintable alternative to steel. (Wood-grained images shown in Natural Oak stain.)

High-definition panel embossments.

High-definition panel embossments are standard on all doors and sidelites.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Door Construction

Therma-Tru fiberglass doors offer the authentic look of wood. It's virtually impossible to tell the difference. But the beauty goes beyond skin deep. We combine craftsmanship and innovation to build our doors for long-lasting energy efficiency, durability and security.

Classic-Craft® Premium Entryways

1 Enhanced Weather Resistance

No more worries about rotting, warping or twisting. Classic-Craft premium entryways are tested and designed to resist extreme weather conditions and the damaging effects of moisture. Both the top and bottom of the door are protected by composite rails for a longer-lasting entryway.

2 Solid Security

Classic-Craft premium entryways feel solid and close with authority. A 4- $\frac{1}{8}$ " wide beam of engineered lumber runs from the top to the bottom of the locking side of the door to add mass and rigidity, giving the door weight and a natural wood feel.

3 Excellent Durability

Built to stand up to the elements and years of wear, Classic-Craft's fiberglass skins are thicker than other standard fiberglass doors to provide added durability and better long-term performance.

4 Higher R-Values

Classic-Craft premium entryways contribute to an energy-efficient home. A polyurethane foam core provides up to four times the insulating R-Value of wood.*

5 Edge-to-Edge Moisture Protection

Resist moisture at every turn – and along every edge. Classic-Craft premium entryways have hardwood and composite edges that help prevent moisture penetration.

*Comparison of fiberglass to wood doors (both without glass).

Fiber-Classic® & Smooth-Star® Doors

1 Weather Resistance

Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.

2 Security

An enhanced lock block combined with a 1- $\frac{1}{4}$ " engineered lumber lock stile increases rigidity and stability.

3 Durability

With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.

4 R-Values

Built with a polyurethane foam core that offers up to four times the insulating R-Value of wood*, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency.

Decorative & Specialty Glass

A Therma-Tru door system with decorative glass can create an entrance that makes a statement — one that says the homeowner has high standards for style, quality and craftsmanship.

- Our wide array of glass designs, from simple to intricate, reflect the home design trends and homeowner desires of today and tomorrow.
- Numerous glass colors, textures, shapes and coming options are available to complement any door.
- Our glass designs are researched in the market to ensure they are highly rated in consumer preference.
- Our decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Our glass designs offer varying levels of privacy and light to suit homeowner needs.
- All Low-E and clear glass panels are tempered to provide added safety.

Doors come to life with Therma-Tru® glass.

More than 10%
wider glass*

**Classic-Craft
Premium Glass**

Standard Glass

*Compared to other standard fiberglass doors.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Classic-Craft® Premium Entryways

- An exclusive collection of 13 decorative glass families, starting on page 32.
- Close attention to detail produces truly distinctive designs you won't find anywhere else.
- More than 10% wider glass* welcomes more light into the home and creates a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All sidelites are made with flush-glazed glass for a truly seamless, consistent appearance.
- All clear glass options are Low-E, providing long-term energy efficiency.

Special Quote Program

Don't sacrifice the look you want. With thousands of standard glass choices and additional glass options available through special quote, we can help you find the right look for virtually any home. See page 268.

Contributes to an energy-efficient home.

Triple-Pane Construction

All triple-pane decorative, as well as privacy and textured, glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Fiber-Classic® & Smooth-Star® Doors

- A portfolio of 17 interchangeable decorative glass designs, starting on page 112.
- Invite light into the home for a more brilliant interior with 22" wide glass in a Lip-lite frame, as well as flush-glazed options with 25–27" wide glass – starting on page 165.
- Scrolled profile lite frames are heat and fade resistant, and suitable for use with a storm door.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

Privacy & Textured Glass

Therma-Tru® doors and sidelites can be fitted with our beautiful privacy and textured glass. This versatile assortment aligns with personal style and homeowner desires for privacy while allowing natural light to brighten the interior.

- Category evolves to include diverse textures for individual design expression.
- Varying opacity levels range from 8–10.
- All privacy and textured glass options are triple-pane, providing thermal efficiency.
- Triple-pane construction also allows for an easy-to-clean surface.
- Available with two Lip-lite frame options, as well as seamless flush-glazed options, in select doors.

Available in Classic-Craft®, Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® doors and sidelites.

Convenient choices for more light.

Low-E Glass

Factory-coated Low-E glass delivers exceptional energy efficiency. Available in Classic-Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse. Look for the ☀️ icon.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

Flush-Glazed Glass

Features frameless design.

Glass built directly into the door during the manufacturing process eliminates the need for a lite frame and provides a high-performance weather seal. Flush-glazed glass features clean lines and eliminates the need for screw plugs. It also offers up to a 16% increase in visible glass area compared to conventional lite frames.

Available in Classic-Craft, Fiber-Classic and Smooth-Star.

Look for the 🔥 icon. See page 121 for more.

*Available in Special Quote Program.

Internal Blinds

Enjoy the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for maximum energy efficiency or standard clear glass.

Available in Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® doors and sidelites.

Divided Lites

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Tailor the look with different texture, profile and color choices. See pages 120–121 for more.

- Coordinate with the home's window patterns for a cohesive look and increased curb appeal.
- Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details.
- Available glass options include elegant privacy and textured, as well as energy-efficient Low-E and clear.

Available in Fiber-Classic, Smooth-Star, Profiles and Traditions.

Also Available: Removable Wood Grilles & Fixed Grilles

Discover the Therma-Tru Difference

Classic-Craft® Canvas Collection®

• The premium smooth, paintable choice.

For years, Classic-Craft premium entryways have defined beauty and durability for fiberglass doors. The innovative Canvas Collection delivers a high-performing alternative to custom wood and heavy-gauge steel. These doors pair durable Classic-Craft construction with crisp embossments and custom wood details. Find choices to match any home décor with a smooth surface that's paintable inside and out, and available in more than 375 door and glass combinations.

- The aesthetics of wood and the performance of fiberglass in a smooth, paintable door.
- Extraordinary in every detail with precision-engineered features and architecturally correct details.

- The largest line of door and glass combinations available in any Classic-Craft collection.
- Classic-Craft is rated a *Consumers Digest* Best Buy for the fiberglass entry door category.
- Available in many styles and sizes – including 8'0" heights – to complement more home styles.

See the collection, starting on page 90.

Discover the Therma-Tru Difference

Vented Sidelites

Ventilation and aesthetics second to none.

Perfect for the front entry.

- Enjoy the added curb appeal of an elegant front entry unobstructed by a screen door.
- Choose eye-catching, decorative glass designs to complement the front entry door selection.

Therma-Tru reinvented sidelites to meet the needs of homeowners seeking ventilation, convenience and aesthetics. Keep the incredible look of the entry or patio door system without sacrificing the pleasure of a fresh breeze. There's no need to cover the door with a screen. Choose beautiful vented sidelites instead. And only Therma-Tru offers vented sidelites with decorative glass design options.

- Works as a small swinging door with sturdy stiles to accommodate hinges, multi-point locking system and thumbturn.
- Wide patio mullions provide required structural strength for years of dependable operation.

- Continuous system, recessed strike plates and multi-point locking gears provide security and stability.
- Convenient, removable screens – available in bronze and white – are easy to operate and designed for years of worry-free use.

Available in Fiber-Classic and Smooth-Star, starting on page 108.

Tru-Defense Eligible

3 Verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.*

4 Make sure the product is installed in compliance with the product approval to meet building codes.

The performance of the door system depends on how it is installed. Proper installation is required to comply with building codes.

*Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

**Impact and structural performance of a single Therma-Tru fiberglass door with a steel plate lining and a Therma-Tru multi-point locking system.

Note: See your Therma-Tru seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders.

No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Constructed to help protect the interior of the home from flying debris and high winds associated with tropical storms and hurricanes, these products are tested to meet codes and regulations in coastal regions, including parts of Florida, Texas and the Carolinas.*

Impact Doors

Feature a built-in 24-gauge steel plate lining.

Impact Glass

Features special laminated glass construction.

Impact Lip-Lite Frame

Features durable, paintable aluminum construction.

An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

NEW

Flush-Glazed Privacy & Textured Glass

for Fiber-Classic® Oak Collection™ & Smooth-Star® Doors

Textured privacy. Seamless beauty.

Bring the functionality of privacy glass and the aesthetics of textured glass together with the benefits of flush-glazed construction. Flush-glazed privacy and textured glass features clean lines and a seamless appearance, with glass built directly into the door during manufacturing and no need for a lite frame.

Available in Fiber-Classic Oak and Smooth-Star, starting on page 108.

Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and glass.

Flush-Glazed Privacy & Textured Glass

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and Rider.

Classic-Craft®
Entry Doors

THERMA TRU
DOORS

BEAUTY

Classic-Craft®

Rustic

Collection™

- Casually elegant wood graining.

Designed to complement American Southwest or European-inspired home styles, Classic-Craft Rustic premium fiberglass entryways feature casually elegant wood graining that can be coordinated with decorative glass and accessories to create enchanting entrances.

Classic-Craft® Rustic Collection™

Seamlessly blends Southwest and European styling with rustic wood grains to evoke Old World charm.

Architectural Character

- Architecturally correct design – up to 25% wider panels.*
- Deeper embossments.
- Solid hardwood square edges.
- AccuGrain® technology.
- More than 10% wider glass.*
- Flush-glazed sidelites.
- Fiberglass lite frames.
- Exclusive glass designs.
- Low-E glass standard.

Heavier Construction

- 20% heavier construction.*
- Top and bottom composite rails.
- 4-1/8" full-length engineered lumber lockstile for added weight and rigidity.
- Thicker fiberglass skins.

Available Sizes

- 3'0" and 3'6" wide doors in 6'8" and 8'0" heights.
- 2-1/2" of height trimmability allows flexibility to fit 80"–82-1/2" and 96"–98-1/2" rough openings.

Finish Options

Classic-Craft Rustic entryways can be stained or painted any color.

6 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.**

🔥 Fire-rated options available on solid-panel doors. See pages 227–231.

+ Tru-Defense. Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

SAME-DAY STAIN

See the difference stain can make. Kit available in seven finish colors on pages 266–267.

*Compared to other standard fiberglass doors.

**Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on height trimmability, limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

Classic-Craft® Oak Collection™

Features warm wood grains with the look of classic Oak, suitable for homes with Traditional styling.

SAME-DAY STAIN

See the difference stain can make. Kit available in seven finish colors on pages 266–267.

Architectural Character

- Architecturally correct design – up to 25% wider panels.*
- Deeper embossments.
- Solid hardwood square edges.
- AccuGrain® technology.
- More than 10% wider glass.*
- Flush-glazed sidelites.
- Fiberglass lite frames.
- Exclusive glass designs.
- Low-E glass standard.

Heavier Construction

- 20% heavier construction.*
- Top and bottom composite rails.
- 4-1/8" full-length engineered lumber lockstile for added weight and rigidity.
- Thicker fiberglass skins.

Available Sizes

- 2'8", 3'0" and 3'6" wide doors in 6'8" and 8'0" heights.
- 2-1/2" of height trimmability allows flexibility to fit 80"–82-1/2" and 96"–98-1/2" rough openings.

Finish Options

Classic-Craft Oak entryways can be stained or painted any color.

6 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.**

🔥 Fire-rated options available on solid-panel doors. See pages 227–231.

+ Tru-Defense® Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

*Compared to other standard fiberglass doors.

**Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on height trimmability, limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

EXCLUSIVE

Classic-Craft®

Canvas

Collection®

Premium paintable surfaces.

The first premium smooth, paintable fiberglass door to carry the Therma-Tru® brand name, Classic-Craft Canvas is designed for homeowners seeking the aesthetics of a sleek, modern entryway that can be adapted to suit multiple styles.

Classic-Craft® Canvas Collection®

Creates a sleek, modern entryway with a smooth, paintable surface for virtually unlimited color options both inside and out.

Architectural Character

- Architecturally correct design – up to 25% wider panels.*
- Deeper embossments.
- Solid hardwood square edges.
- More than 10% wider glass.*
- Flush-glazed sidelites.
- Fiberglass lite frames.
- Exclusive glass designs.
- Low-E glass standard.

Heavier Construction

- 20% heavier construction.*
- Top and bottom composite rails.
- 4- $\frac{1}{8}$ " full-length engineered lumber lockstile for added weight and rigidity.
- Thicker fiberglass skins.

Available Sizes

- 3'0" wide doors in 6'8" and 8'0" heights.
- 2- $\frac{1}{2}$ " of height trimmability allows flexibility to fit 80"-82- $\frac{1}{2}$ " and 96"-98- $\frac{1}{2}$ " rough openings.

Finish Options

Classic-Craft Canvas entryways can be painted any color.

 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.**

 Fire-rated options available on solid-panel doors. See pages 227–231.

 Tru-Defense® Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

*Compared to other standard fiberglass doors.

**Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on height trimmability, limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

Fiber-Classic®

Mahogany Collection™ & Oak Collection™

108

- Wood grains to suit any style.

Choose from two wood-grained collections for the perfect fiberglass door to fit a variety of home styles at an excellent value. Fiber-Classic Mahogany complements rich wood tones in home interiors, extending the look to the outside with beauty and elegance. Fiber-Classic Oak is the door that started the fiberglass revolution, featuring the distinctive look of natural Oak graining.

 Bottom: Fiber-Classic Oak Collection, Element Glass, Door – FC756, Sidelites – FC756LSL, FC756RSL; Transom – EMRT

Smooth-Star®

• Smooth, paintable surfaces.

Smooth-Star is the answer when the best look for the home is delivered in a sleek, paintable package. The more attractive and durable alternative to steel, Smooth-Star fiberglass doors are ready-to-paint with crisp, clean contours that meet the needs of homeowners seeking more color options for their doorways.

Top: Smooth-Star, Sedona Glass, Door – S91, Sidelites – S139SL, Transom – 19520T
Bottom: Smooth-Star, Saratoga Glass, Door – S6029, Sidelites – S291SL, Transom – 19750T

Fiber-Classic® & Smooth-Star® Fiberglass Doors

Therma-Tru gives the homeowner options to choose the style that best fits their personality and home without compromise. Fiber-Classic and Smooth-Star share many door styles in common. And the available glass families cross over between door collections. Find flexible options to fit virtually every entrance from front entry to patio to utility doors.

Fiber-Classic & Smooth-Star fiberglass doors offer:

- High-definition panel embossments.
- Composite top and bottom rails.
- 1-¼" engineered lumber lock stiles.
- 22-½" lock block in Fiber-Classic and 12-½" lock block in Smooth-Star.
- Durable, long-lasting fiberglass skins.

 WBDR Options: Look for this icon to find door styles that can be configured for WBDR.*

 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.*

 Fire-rated options available on solid-panel doors. See pages 227–231.

 Tru-Defense® Warranty Rider eligible when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider.

Fiber-Classic® Mahogany Collection™

Features deep Mahogany graining to complement homes with richer wood tones.

Fiber-Classic® Oak Collection™

Features the warm look and feel of Oak graining.

Smooth-Star®

Features smooth, ready-to-paint surfaces.

*Please verify that there is a Therma-Tru product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, Tru-Defense Rider, ENERGY STAR qualified products and product approvals.

Vented Sidelites

More than a sidelite. Vented sidelites from Therma-Tru let the homeowner enjoy the added curb appeal of an elegant front entry unobstructed by a screen door. Choose from convenient specialty glass options or eye-catching decorative designs. In fact, only Therma-Tru offers vented sidelites with decorative glass. Look for the (●) icon.

- Sturdy stiles and hinges make the unit work as a small swinging door.
- Wide patio mullions provide dependable operation.
- Multi-point lock and continuous system help provide security and stability.
- Convenient removable screens – available in bronze and white – are designed for worry-free use.

Available Configurations:

Single Door with Vented Sidelites (Inswing Only)

Double Doors with Vented Sidelites (Inswing Only)

Note: No Impact options available for vented sidelites.

Texas Star Page 144

Beautifully crafted with ① clear bevels, ② curved bevels, ③ clear waterglass, ④ granite glass, ⑤ glue chip glass and brushed nickel coming, there's no mistaking the inspiration for this recognizable design. Strong, independent and all-American.

Brushed Nickel

Wellesley™ Page 146

Simple yet charming, Wellesley's Victorian-inspired design uses ① clear baroque glass, ② clear curved bevels, ③ waterglass, ④ granite glass and coming to add beauty to any entry.

Black Nickel

Brushed Nickel

Brass

NEW Riserva™ Page 149

Riserva decorative glass features a combination of linear and curved wrought iron elements that create a simple yet graceful design. Riserva features ① oceana glass for privacy with a look that enhances a wide variety of home styles, including Mediterranean, Old World and Southwest.

Wrought Iron

Concorde™ Page 152

There's just something friendly about Concorde's cheery four-leaf design.

1 Glue chip glass, 2 clear curved bevels, 3 clear glass and coming make up its Old World charm.

Black Nickel

Brushed Nickel

Brass

Kensington™ Page 155

Kensington speaks European elegance while offering modest privacy with its

1 clear bevels, 2 glue chip glass, 3 granite glass and coming.

Black Nickel

Brushed Nickel

Crystal Diamonds™

Page 157

Perfect for the place where friends and families meet. And with its 1 glue chip glass, 2 clear bevels and brass coming, Crystal Diamonds provides privacy with a welcoming touch.

Brass

Note: Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more details.

Axis™ Page 160

Simple and smart, Axis combines **1** narrow reed glass in horizontal and vertical arrangements to create contrast and modest privacy. A vertical band of **2** clear glass bevels completes this linear design, ideal for Modern home styles.

Black Nickel

Frosted Images®

Page 163

Delicate and ornate, Frosted Images offers a high privacy rating with an elegant aesthetic achieved with the simplicity of

1 white-frosted glass.

Internal Blinds Page 175

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. A single-hand operator opens, closes and tilts the blinds to control the desired level of privacy and light.

- 1** Single-Hand Operator

Simulated Divided Lites with Grilles Between Glass

Choose wood-grained or smooth-textured SDL bars layered over flat bronze GBG bars to achieve the most authentic divided lite look.

Look for the (  ) icons.

Shown with flat bronze GBGs, recommended.

Simulated Divided Lites (SDLs)

Wood-grained or smooth SDL bars are adhered to the interior and exterior panes of tempered glass. Can be stained or painted to complement the door and home.

Look for the () icon.

Grilles Between Glass (GBGs)

Contour or flat GBG bars are thermally sealed between two panes of tempered glass for the convenience of a smooth, easy-to-clean glass surface.

Look for the ( ) icons.

Removable Wood Grilles

Removable wood grilles snap on and off the interior pane of tempered glass for easy cleaning. Can be stained or painted to complement the home décor.

Look for the () icon.

Interior view.

*Available in Special Quote Program.

**Not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Note: See page 273 for important product details that may help with your purchase decision.

Fixed Grilles

Fixed grilles are molded as part of the lite frame on the interior and exterior panes of tempered glass. Can be stained or painted to complement the home décor.

Look for the (◆) icon.

New for 2016: Find new flush-glazed privacy and textured glass options, starting on page 165.

Long-Term Performance

Glass built directly into the door during manufacturing offers long-term performance. The 1 polyurethane foam core surrounds the glass, helping to provide durability and strength, and a 2 dual adhesive weather seal provides high-performance protection inside and out.

16% Wider Daylight Opening***

Let in more natural light with up to a 16% increase in visible glass area.

Seamless, Clean Lines

Factory-built, seamless construction eliminates the need for a lite frame and screw plugs.

Authentic Wood Door Appeal

Features true flush-glazed construction, crafted with attention to detail that replicates traditional wood door construction.

Available in privacy and textured glass, as well as divided lites, Low-E and clear glass. Look for the (🔥) icon.

Flush-Glazed Fiberglass Door Replacement Rider

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door and glass.

***Compared to conventional lite frames.
Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and Rider.

Noise Reduction Doors

Therma-Tru® Noise Reduction doors deliver aesthetics with a commercial level of performance for residential projects. Ideal for multi-use and urban in-fill projects located near sources of noise pollution, our Noise Reduction doors provide a Sound Transmission Class (STC) rating of 36. Our Noise Reduction lites also offer added security from forced entry with laminated glass surrounded by a standard Lip-lite frame.

Note: Also available in decorative full-view glass option in aluminum Lip-lite frame.

Traditions Steel

• Back to basics.

It's back to basics with Traditions. This line of steel doors combines attractive designs and value-based options to create a great, cost-conscious alternative for front entry and house-to-garage.

Top: Traditions, Clear Glass with SDLs, Door – TS3000-6C, Sidelites – 100SL
Bottom: Traditions, Clear Glass with SDLs, Doors – TS263

Profiles™ & Traditions Steel Doors

Find style at an affordable price point with options to match any home style and budget in Profiles and Traditions doors. Fire-rated options on 6'8" solid-panel doors make a perfect choice for house-to-garage.

- 1-¼" lock stiles.
- 12-½" lock blocks.
- No stile lines.
- Primed, ready-to-paint surface.

 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.*

 20-Minute Fire-rated options available on 6'8" solid-panel doors. See pages 227–231.

Profiles™ Steel

Features 24-gauge steel, smooth surface and triple-shadowed panel embossments for greater definition.

Traditions Steel

Features 25-gauge steel, standard embossed smooth surface. All 8'0" doors are 24-gauge steel with standard embossments.

Retrofit Hinged Patio Doors

Replacing common slider sizes? Find hinged patio door options in this section. For more about our patio door systems, see pages 246–248.

5'0" Patio Opening = (2) 2'4" Doors
 6'0" Patio Opening = (2) 2'10" Doors

*Please verify that there is a Therma-Tru product approval for the configuration before buying.

**Decorative glass designs are shown in Profiles only.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass privacy ratings may be more or less than indicated, based on glass design and size of glass. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, ENERGY STAR qualified products and product approvals.

Fire Doors

Classic-Craft®, Fiber-Classic®, Smooth-Star® & Steel

The phrase
“safety first” is more
than just a saying. It’s
our standard.

From smooth to wood-grained, we have products to meet most national and local code requirements for house-to-garage, multi-family residential and hotel / motel unit entries.*

227

• Safety first.

Adjusta-Fit® 2 Frame

Using the right frame is critical in any top-quality door installation, and never more so than with Fire-rated products. Therma-Tru Adjusta-Fit 2 frame technology helps ensure an optimum fit and long-lasting performance. The frames are constructed with a commercial-grade, 18-gauge base frame; galvanized steel and factory-coated paint finish; and an all-aluminum, thermally broken threshold. These features make them ideal for interior and exterior applications, including corridor openings and outside unit entries.

Therma-Tru® Adjusta-Fit 2 frames also feature these key benefits:

- 90-Minute positive-pressure Fire-rating, third-party certified by Intertek, Warnock-Hersey.
- Standard 4-7/8" ANSI 115.1, or 2-3/4" T-lip strike prep option.
- Choice of standard, public access or no-sill options.
- Minimum 22-gauge closure with 1" of adjustability, suitable for walls from 4"-9-1/2" deep.

*To confirm Fire door requirements in your area, always check with your local building code authority.

90-Minute Fire-Rated Steel Edge

Therma-Tru's TR 12-24 Steel Edge doors and door systems provide outstanding protection. Constructed with 24-gauge steel edges and tested to withstand at least 90 minutes of fire exposure at temperatures that reach more than 1,700 degrees Fahrenheit, the doors are perfect for multi-family living and house-to-garage projects. Available in a variety of door styles, sizes and lock preparations, the units are suitable for a minimum 4" wall depth or greater. Therma-Tru also offers all the necessary components – frame, weatherstrip, bottom sweep and sill – to complete a 90-Minute Fire-rated door system.

 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ in an Adjusta-Fit. 2 frame.*

20-Minute Fire-Rated Wood Edge

Therma-Tru offers an industry-leading selection of fiberglass 20-Minute Fire-rated doors. Most of our solid-panel fiberglass wood-edge doors can be ordered as 20-Minute Fire-rated product, featuring a proprietary cement-based core. Solid-panel steel wood-edge doors in select sizes can be ordered with the 20-Minute Fire-rated label. The doors are tested to withstand a minimum of 20 minutes of fire exposure at temperatures that reach more than 1,400 degrees Fahrenheit, and are certified and approved for use with mortise locks.

 WBDR / HVHZ Options: Look for this icon to find steel door styles that can be configured for WBDR or HVHZ in a Therma-Tru-specified wood frame.*

PULSE

232

• Modern design. Upbeat living.

Clean lines. Crisp angles. Sleek designs. Vintage style. Pulse is a contemporary series of door styles and glass designs that can be combined to make a bold statement.

With three distinct aesthetic approaches – Ari, Línea and Echo – the entrance becomes modern art.

*Please verify that there is a Therma-Tru product approval for the configuration before buying.
Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. Glass designs may differ from depiction due to size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, ENERGY STAR qualified products and product approvals.
Top: Pulse Ari, Satin Etch Glass with Flat Lite Frame, Door – S83XE

It's your decision, by design.

Pulse is geometry with energy. Designed to be fun and easy to mix and match with sleek, flush door and sidelite styles, you can create a modern entrance without missing a beat. Explore all the possible combinations at www.thermatru.com/pulse. Mix and match to get the style numbers needed to order. Turn the page for a glimpse of available styles and sizes.

The creativity is unlimited. Stain or paint the entrance any color.

These doors and sidelites come ready to stain or paint. So there's no limit to the creativity you can use when it comes to finishing touches.

6 WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.*

1 Start with a STYLE.

Combine doors and sidelites to create an entrance that fits your vision.

2 Choose a MATERIAL.

Each style is available in any of these material choices.

3 Select a GLASS.

Find an available glass design to complete the statement you want to make.

Privacy & Textured Glass

Available for all Pulse door styles.

Decorative Glass

Available for Línea.

Available for Ari.

Available for Echo.

- 2 Bottom Sweep
- 3 Sill
- 4 Hinges
- 5 Corner Seal Pads (Inswing Only)
- 6 Sill Pan (Recommended)
- 7 Astragal
- 8 Frame Components
- 9 Multi-Point Locking System (Included)
- 10 Removable Screens

A Therma-Tru® patio door with genuine Therma-Tru components is a complete door system with doors, glass and components engineered to work together for durability and reliability through the years.

Patio Transoms

Transoms can be stained or painted to match a Fiber-Classic® or Smooth-Star® door system. Available for 5'0", 5'4", 5'8" and 6'0" patio openings.

Note: Patio transoms are designed for a unit with a mullion.

19250T

19050T

Vented Sidelites

Enjoy the view – and a fresh breeze, too.

- Constructed to provide ventilation without sliding screens blocking the view, vented sidelites work as small swinging doors with convenient removable screens — available in bronze and white.
- Engineered for durability and safety with wide patio mullions for strength, and multi-point locking gears and recessed strike plates for security.

Vinyl Sliding Patio Doors

• Fully assembled and ready to install.

Crafted to ensure smooth operation, Therma-Tru® vinyl sliding patio units are delivered fully assembled and ready to install.

- Features fully adjustable rollers for smooth operation.
- Reinforced windows help provide security and weather protection.
- Engineered with a tamper-resistant, adjustable locking system – standard for security.
- Available Sizes: 5'0"–8'0" widths in 6'6" height.
- Configurations: Available in double and triple units.
- Glass Options: Clear, insulated glass with optional Low-E for increased energy efficiency. Optional contour or flat grilles between glass available to customize the doors to complement window patterns.
- Optional DP-50 Impact-rated product available.

To view our full offering of vinyl sliding patio doors, please see your Therma-Tru seller or visit www.thermatru.com/slidingpatio.

Door System Components

• Engineered to work together.

More than a beautiful door. A Therma-Tru® door system with genuine Therma-Tru components is engineered with craftsman precision for durability and reliability through the years. With weather resistance and energy efficiency so the door performs as exceptionally as it looks.

Visit our online replacement parts configurator and helpful videos to maintain the integrity of a complete door system with genuine Therma-Tru components – www.thermatru.com/parts.

Sills

Allow for a tight seal to help block wind-driven moisture infiltration at the bottom of the door. Available in a variety of materials with features to meet the needs of different climates and exposures. Ask your Therma-Tru seller for a complete list of options.

Inswing Options

Composite Adjustable Sill

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, U-shaped weather seal adds protection, and flush stainless steel screws adjust to help maintain a tight seal.

Continuous length with spread mullion capability available to fill 49"-75" rough openings.*

Hardwood Adjustable Sill

Durable hardwood cap and nosing can be stained to match door and trim, U-shaped weather seal adds protection, and flush zinc dichromate screws adjust to help maintain a tight seal.

Basic Composite Adjustable Sill

Wood-grained composite cap and nosing resist rot, adds protection, and zinc dichromate screws with removable screw caps adjust to help maintain a tight seal.

Basic Fixed Sill

Slanted cap and nosing mates with the single-bulb bottom sweep to help form a tight seal.

Moderate Climate Sill (For Warmer Climates)

All-aluminum construction resists corrosion and slanted cap helps maintain contact with the door bottom.

Inswing Sill Extenders

1"

2"

1-3/8"

3-1/4"

Outswing Options

Composite Outswing Sill

Thick, through-colored wood-grained composite cap and nosing resist wear and rot, and integrated weatherstrip helps form a tight seal under wind pressure.

Aluminum Sill with Thermal Break

All-aluminum construction resists corrosion, and integrated weatherstrip helps form a tight seal under wind pressure. Also available without thermal break.

Coastal Sill (For Coastal Regions)

All-aluminum construction resists corrosion, extra-high cap profile provides improved resistance to wind-driven moisture infiltration, and integrated weatherstrip helps form a tight seal under wind pressure. Helps meet code requirements in HVHZ coastal regions.

Outswing Sill Extender

2"

Finishes:
Lightwood (Premium)
Darkwood (Premium)

Public Access Sill

Public Access Sill with Thermal Break** (For ADA Applications)

All-aluminum construction resists corrosion, and 1/2" - high surface with 1:2 ramp slope meets Americans with Disabilities Act (ADA) requirements. Also available without thermal break.

Options Key

✚ Tru-Defense Eligible

*See the Therma-Tru *Architectural Details & Components* manual for actual unit size specifications.

**Door systems built with public access sills have little resistance to water penetration and have a potential to leak if installed exposed to weather.

We recommend these systems be installed away from weather under large soffits or overhangs.

***For full details on the Tru-Defense Warranty Rider, visit www.thermatru.com/trudefense.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See page 273 for important product details that may help with your purchase decision.

Sill Protection

Sill Covers (Recommended)

Fits over the sill to help protect cap and finish from damage during installation. Made of a heavy-duty material to withstand wear, and available in a variety of options to fit our sills.

See page 258 for availability.

Shown over composite adjustable sill.

Sill Pan (Recommended)

Fits between the sill and subfloor for an added layer of protection against moisture. Engineered with sloped channels to help collect and drain moisture away.

Corner Seal Pads (Inswing Only)

Fit securely behind weatherstrip and mate with our inswing sills to help block wind-driven moisture from pushing through the corner and up the frame. (Not required for outswing sills.)

Hinges position the door to properly compress the weatherstrip and help ensure smooth operation. Featuring options to suit various applications and mate with mortise pockets machined into our doors. Adjustable security strike plate wraps around the jamb and engages the frame for added support and strength, and resistance against forced entry. Tested to withstand up to three times the force of standard strike plates.*

Astragals

Cover the margin between double doors to help complete the seal against air and moisture infiltration, with aluminum construction for stability, holding power and durability. Available in a stainable wood-grained vinyl wrap or paintable aluminum.

For dimensional data, see your Therma-Tru seller or visit www.thermatru.com for a copy of the Therma-Tru Unit & Rough Opening Sizing Booklet.

Therma-Tru® Door Systems

Independent Laboratory Performance Testing

At the time of manufacture, Therma-Tru exterior door systems (properly assembled with all genuine Therma-Tru components) have been tested under one or more of the following performance specifications: structural load, uniform load deflection, vertical load resistance, air infiltration, water penetration resistance, forced entry resistance, operating forces, force to latch, deglazing resistance, operating cycle performance, impact resistance, sound transmission, thermal performance and solar heat gain performance. Therma-Tru exterior door systems conform to the applicable Performance Standards / Test Methods that may include ANSI/AAMA/NWDA 101/I.S.2, AAMA/WDMA 101/I.S.2/NAFS, AAMA/WDMA/CSA 101/I.S.2-A440, ASTM E330, ASTM E547, ASTM E283, ASTM E 331, ANSI/BHMA A156.2, AAMA 1304, AAMA 920, AAMA 925, ASTM E2068, ASTM F842, ASTM E987, ASTM E1300, ASTM E90, ASTM E413, ASTM E1332, ASTM E1886, ASTM E1996, PA/TAS 201, PA/TAS 202, PA/TAS 203, HUD UM89, AAMA 1702.2, 24 CFR 3280, 24 CFR 3282, NFRC 100 and NFRC 200. Refer to www.thermatru.com for design pressure and other performance ratings.

Doors

Recommended Door Overhang – For best performance, all doors should be protected by an overhang. The recommended size is half the distance from the base of the door to the bottom of the overhang. So, as an example, a distance of 10' for this dimension would require an overhang of 5' minimum. For wetter climates, southern or western exposures, and for double doors, the overhang should be the same as the distance from the base of the door to the bottom of the overhang. In this same example, the dimension is 10' so the overhang should be 10'.

For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for 8'0" and double door applications.

Doorlites

Doorlites are insulated, and exposed panes are tempered. Optional wood grilles available for clear doorlites and transoms.

Inserts – All glass (except flush-glazed styles) shall be bedded with glazing mastic and secured in doors with screws. Therma-Tru's SMC and BTS doorlite frames are available for most styles except where noted. SMC and BTS frames shall resist significant deformation by heat up to 200 F, regardless of paint or stain color or placement behind a storm door.

PVC doorlite frames and dividers must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty. PVC doorlite frames and dividers are not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Decorative Glass & Wrought Iron – Each Therma-Tru decorative glass unit is handcrafted by skilled artisans replicating Old World techniques. Each piece is a unique work of art and many things that would appear to be imperfections (small bubbles, lines and waves within the glass) are normal and are part of the Old World charm.

Condensation occurs naturally in the home, caused by excessive humidity in the air. Often this harmless water vapor can be seen collecting on glass surfaces, such as doorlites. Energy-efficient glass units in Therma-Tru door systems are constructed to keep the glass as warm as possible, reducing condensation build-up. However, there is no such thing as a condensation-free window or doorlite in high-humidity conditions.

NOTE: Glass privacy ratings are determined by the 1/2-lite glass size. As a result, the amount of privacy / glass transparency may be more or less than indicated by the privacy rating, based on the glass design and size of the glass that is inserted into the door, sidelite or transom.

Glass designs may differ from depiction due to the size of glass and hand craftsmanship. See your Therma-Tru seller or visit www.thermatru.com for more details.

Components

Adjustable Security Strike Plate – Proprietary adjustable type, permitting in-out adjustment of door in frame, up to 3/16".

Hinges – Minimum hinge size 4" x 4" x .098".

Ball-bearing hinges are recommended for 8'0" doors, doors using heavy lites (e.g., wrought iron), all 20-minute Fire-rated fiberglass doors, impact-rated doors and glass, and all Classic-Craft doors.

Use of the multi-point locking system is highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.

Please be aware that single door units built with public access sills have little resistance to water penetration, and double doors built with these sills have a potential to leak if installed exposed to weather. We recommend that units be installed away from weather under large soffits or overhangs.

Use of a sill pan is recommended.

Fiber-Classic and Smooth-Star dentil shelves are not recommended for placement behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Impact-Rated Products

Impact-rated products must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Visit www.thermatru.com for product approvals and full details on WBDR- (Wind-Borne Debris Region) / HVHZ- (High Velocity Hurricane Zone) compliant products. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Fire-Rating Performance Standards

Fire and building codes vary throughout the country and acceptance of products and labels is left to the discretion of the local authorities.

MODIFICATION OF PRODUCTS DESCRIBED IN THIS BROCHURE WHICH CARRY FIRE RATINGS (DOORS AND FRAMES) MAY VOID THE FIRE RATINGS.

Test conducted by Intertek, Warnock-Hersey.

Limited Warranties

Please be aware of the applicable Therma-Tru Limited Warranty which contains important restrictions, disclaimers, exclusions and conditions, as well as the below listed Installation, Finishing & Maintenance documents, related to the Therma-Tru product purchased (e.g., Fiberglass, Steel, Patio Door Systems), all of which can be obtained from your Therma-Tru seller or found in their entirety at www.thermatru.com:

- Therma-Tru. Fiberglass and Steel Door Systems Residential Limited Warranty: Fiberglass – Classic-Craft®, Fiber-Classic®, Smooth-Star. and Pulse. Door Systems; Steel – Pulse®, Profiles®, Traditions and Therma-Tru. Fire Door (TR 12-24) Steel Edge Door Systems
- Therma-Tru. Vinyl Sliding Patio Door Systems Residential 10-Year Limited Warranty: PVI Sliding Patio Doors
- Therma-Tru. Tru-Defense. Door System Rider to Fiberglass Door Systems Limited Warranty: Classic-Craft®, Fiber-Classic®, Smooth-Star. and Pulse. Fiberglass Door Systems
- Therma-Tru. Construction Glass Breakage Rider to Fiberglass Door Systems Limited Warranty for Residential and Multi-Resident Premises: Classic-Craft®, Fiber-Classic. and Smooth-Star. Flush-Glazed Fiberglass Door Systems
- Same-Day. Stain 5-Year Limited Warranty: Same-Day. Stain and Topcoat for Use on Therma-Tru. Fiberglass Door Systems and Fypon. Stainable Polyurethane Products

Installation, Finishing & Maintenance

Installation, finishing and maintenance must be performed according to Therma-Tru's recommendations to comply with warranty requirements. Obtain a copy of the following documents outlining recommendations from your Therma-Tru seller or find them in their entirety at www.thermatru.com:

- Installation Instructions
- Therma-Tru Fiberglass and Steel Door Systems Recommendations for Proper Finishing and Painting or Staining

NOTE: Finish colors may vary from an actual application due to fluctuations in finishing or the printing of this catalog. See your Therma-Tru seller or visit www.thermatru.com for more details.
